Mayor's Report April 27, 2026

April 15 met with Senator Husted's rep to discuss needs of the area at this point no one has responded back on my questions.

Discussions continue on the date for paving on Lakeview Barry Wright's streets, he is ready and so is paver how ever we have made the decision that is best to wait until Concrete trucks are done running product to Picnic Point project which should be done before Memorial Day, the last concrete will be poured when the pavilion arrives.

I was approached by the new President of the Buckeye Lake Historical Society, Tom Rodgers, inquiring about any available space the Village might have, they have to vacate their current space by May 31, 2026 and they need a location to inventory their collections which currently are in several storage units/ lockers. Subject to be discussed in Service Committee April 27, 2026.

Update on Log Cabin project foundation blocks were laid on Sunday as soon as that is cured, we will have Dingey Movers come back and move the cabin down onto the foundation and work will proceed to prepare it to be on display this summer. Donations are still needed and may be made out to The Village of Buckeye Lake / memo item Holtsberry Log Cabin.

With the season here I would like to remind residents if you have safety needs please call 911 for Dispatch of calls to the appropriate agencies, there is no one in the village offices on the weekends.

Noise ordinance is in place and will be enforced, PD has been notified and the ordinance is on our website. 11:00p.m. to 7:00a.m.
